

# Everyday Energy Champion 6 month Training Programme

“By spending 20 minutes ‘everyday’ anyone can champion energy and sustainability, make a difference and discover the benefits for themselves”

**Aim:** on the job training to support champions looking to develop the confidence, skills and performance needed to continually deliver and improve energy improvement every day for their work areas and organisations.

# Developing and supporting energy and sustainability champions # Improving confidence, skills and performance # Everyday energy leadership # Energy audits through people # Energising behaviour change through people # Design, procurement & operational control opportunities # Measurement & verification; Internal auditing # Embedding continual improvement long-term.

**The course caters for those:**

- > Energy champions tasked with coordinating everyday efforts for continual energy performance improvement across their local teams, work areas and organisation.
- > Who are completely new to being an everyday energy and sustainability champion for their organisation and who need to become competent on the basis of appropriate training, skills and performance.
- > Experienced energy champions who would like to further develop their skills for continual energy performance improvement and energy leadership.

**Choose topics from at least 6 modules to create your training journey plan, depending on your objectives.**

**Modules:** Understanding your role; Energy performance that works for you; Strategic management and control systems; The Catalyst for change; Performance goals;; Energy audits through people; Energising behaviour change through people; Design, procurement & operational control opportunities; Measurement & verification; Internal auditing; Developing the business case; Embedding continual improvement long-term.

**Covered:** Buildings; Estates; Industry; Transport; Heating, ventilation and air-conditioning systems; Lighting systems; Control systems; Motors & drives; Process systems; User equipment.

**Bespoke:** We can tailor make the training programme and on-going coaching and support as required; this includes toning down or enhancing the gamification elements.

**Commitment:** 20 guided learning hours (6 topics); typically run over 6 months as monthly half day workshops. This can be extended out to 12 months, depending on your aims and objectives.

**Delivery:** At your site, an off-site location, online or a combination of these.

**Qualification:** Everyday Energy Champion Programme Certificate awarded by ESTA, the Energy Services and Technology Association
